

THE PROBLEMS

- All PVPUSD schools were built between 1929 and 1964 and are in need of major renovations.
- PVPUSD ranks at the bottom of per-student state funding and won't receive much of anything from the statewide measure.
- Statewide regulations for earthquake safety recently changed and our schools need to be brought up to code.
- The quality of our facilities has already fallen below that of neighboring districts, all of which are investing more in their schools than we are.

THE SOLUTION

MEASURE PV **ACTUAL BALLOT LANGUAGE THAT** **VOTERS WILL BE ASKED TO APPROVE**

“To repair aging Palos Verdes Peninsula Unified School District sites; improve campus safety/security systems; make seismic, roofing, plumbing, electrical, air conditioning, and disabled student access improvements; update/replace bathrooms, classrooms, and science labs that support students for college/career readiness, shall the Palos Verdes Peninsula Unified School District measure authorizing \$389,385,000 in bonds, at legal rates, be adopted, levying approximately 3.8 cents per \$100 assessed value (\$21,042,000 annually) while bonds are outstanding, with a citizens’ oversight committee and independent audits on all bond money?”

THE DETAILS

Voting Yes on Measure PV will:

- Ensure all funds go directly to our PVPUSD schools
- Guarantee our community retains complete control over how the money is spent
- Provide for yearly audits by an independent citizens’ oversight committee, as required by law

If the proposal fails

- Our community pushes the problem off and costs increase
- Schools will continue to deteriorate, impacting our students
- We will fall behind neighboring school districts who are fixing their schools
- Our District becomes less attractive to young families, impacting our property values

60 YEARS

Average age of
PVPUSD Schools

LAST PLACE

PVPUSD ranks at the bottom
of per-student funding.

Schools must be brought up
to current earthquake codes

VOTE YES ON MEASURE PV

ALL FUNDING GOES DIRECTLY TO OUR SCHOOLS

THE BENEFITS

- Our District's schools will continue to attract young families which leads to high property values, protecting our investments in this community.
- School buildings will be retrofitted to meet new statewide earthquake standards.
- Fire safety and security systems will be updated.
- Students will have increased access to safe, good quality drinking water.
- Facilities will be compliant with the Americans with Disabilities Act.
- All funding goes directly to our District's schools and our community will retain complete control over how the money is spent.
